

Amendments to the Specification:

Please replace the paragraph beginning at page 9, line 20, with the following rewritten paragraph:

A1 -- Step 1: Center acrylic rate block with funnel on sample 13 on bench liner 14. Insult sample system with 2 mls. simulant, using stopwatch to measure the time from the start of the insult until the fluid is absorbed beneath the cover material. Record time. This is the single intake time. Wait 9 minutes from start of insult.--
